

# 1 Document Title

A section is tagged with header level H1. There should only be one per document.

## 1.1 Part 1

Other parts of the document can be subsections, which are tagged with header level H2.

When creating a table, it is important to indicate the header row(s).

Name	Value
This	11
That	2

## 1.2 Part 3

This part has an image. It is important to include alternative text for images, or mark them as decorative. The first has an alt text, while the second is marked as decorative. See Subsection 5.1 for more information.
